About Us.

Introduction

TERRAPLAST PLASTIC INDUSTRY LLC is one of the best quality plastic product manufacturers and wholesale suppliers in UAE. We have large quantity productive capacity and specialize in plastic bags, plastic sheets and plastic rolls, durable packaging solutions-our expertise will make the customized products as per client specifications. We have highly professionals and technical personnel teams who are well experienced in this industry and capable of extending their expertise to customers.

We launched our operations in the UAE in 2021 and have since established a significant presence in the Middle Eastern market. Today, our group successfully manages seven companies and holds a prominent position in the UAE market. In 2024, we ventured into the biopolymer sector, developing a new range of products. Now we are the leading Bioplastic packaging dealer in the middle east. We have been exporting our packing materials, both plastic and bioplastic to Oman and African countries.

Mission & Vision.

MISSION

Our corporate responsibility elongates to care for the environment by using only eco-compatible plastic technology features in all our products. Terraplast Plastic Industry is an active participant to make sure all its products are environment-friendly in polyphony with the environment solutions that are 100% recyclable and biodegradable without compromising quality, safe of use, beauteousness designs and durability.

VISION

Terraplast Plastic Industry goal is to be leader in the expertise production of plastic packing solutions providing customers with high quality products that are highly exclusive to their industry. Eco-products will be in the vanguard of our Zero Waste Future.

Our Philosophy.

At Terraplast Plastic Industry, we believe in harmonizing innovation with sustainability. Our commitment is to create products that not only meet the highest standards of quality and design but also contribute positively to the environment. We strive to lead by example, ensuring that our practices and products reflect our dedication to a greener future. By embracing eco-compatible technologies and fostering a culture of continuous improvement, we aim to inspire and drive the industry towards a zero-waste future. Our philosophy is rooted in the belief that true progress is achieved when we balance the needs of today with the well-being of tomorrow.

Product Overview

LDPE

LDPE is a versatile plastic known for its flexibility, transparency, and chemical resistance, used in packaging, agriculture, consumer goods, and industrial applications. Shrink packaging provides a secure, tamper-evident seal for various products

Shrink

Shrink packaging uses heat to shrink films tightly over products, providing a secure, tamper-evident seal and enhancing product appearance.

Polypropylene (PP)

Polypropylene (PP) is a versatile, durable, and lightweight thermoplastic polymer with high chemical resistance, making it ideal for packaging and various industrial applications. It can be easily molded into different shapes, enhancing its versatility.
